Policy on Acceptable Use of Computer Network/Computers and Resources

Primary Prep Elementary and Middle School recognizes as new technologies shift the manner in which information is accessed, communicated, and transferred; these changes will alter the nature of teaching and learning. Access to technology will allow students to explore databases, libraries, Internet sites, and bulletin boards while exchanging information with individuals throughout the world. The school supports access by students to these information sources but reserves the right to limit in-school use to materials appropriate for educational purposes. The school provides training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

Primary Prep Elementary and Middle School therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable, or illegal behavior as just cause for taking disciplinary action, limiting or revoking network access privileges, and/or instituting legal action. Primary Prep Elementary and Middle School provides access to computer networks/computers for educational purposes only. The school retains the right to restrict or terminate students access to computer networks/computers at any time, for any reason.
