

## Summer Math for Rising Third Graders

During the summer, have your child complete the following packet. They should also review the concepts listed below.

- Print the **End of the Year Assessment and write** your answers. Return to your teacher on the first day of school.

### Concepts to Review

1. **Fact fluency**- practice basic addition and subtraction facts to ensure students can answer these using mental math. They should be able to do this to 30.
2. **Time**- Continue to practice telling time with an analog and digital clock.
3. **Money**- Continue to practice showing money combinations, making change and identifying different coins and bills.
4. **Measurement** - Measure objects using inches, feet, yards, centimeters, and meters.
